## Web Linking Practices

**Here are some tips to help you tell if you have left the Register-Guard Federal Credit Union website:**

1. Instead of a Register-Guard Federal Credit Union address, the URL of the linked website appears in the location box (or address field) of your web browser.
2. The linked website is shown in a new browser window. The appearance of the linked site, including its colors and graphic design, is significantly different from the Register-Guard Federal Credit Union site.

The linked site or page does *not* appear in a new browser, but you find one or more of the following:

1. The logo of a different company in the upper right hand corner or other prominent location on the linked website, along with the words "Powered by", "Brought to you by", or "Provided by".
2. The layout and content of the navigation tools on the left-hand side of the linked site or in the header at the top of the new webpage are different from the Register-Guard Federal Credit Union's navigation.
3. The first navigation link refers to a description of the company that sponsors the website. It may be titled "About (Third Party's Name)".
4. A third party's privacy policy and terms of use statement are identified instead of the Register-Guard Federal Credit Union's.
5. Information in the footer at the bottom of the webpage contains information about a company other than the Register-Guard Federal Credit Union.
